

VEHICLE HISTORY REPORTS

If your customer's vehicle is already reported to CARFAX as being in an accident or sustaining physical damage, we can help protect the value of their investment when you repair a vehicle using 100% OEM collision repair parts. With your permission, we can provide repair information to CARFAX stating that you repaired the vehicle using 100% OEM parts. You will also be able to provide your customers with an official "Certificate of Authenticity" verifying that you repaired their vehicle using 100% OEM collision repair parts and standards. This will help the customer protect their investment and the value of their vehicle by helping to ensure the safety, craftsmanship, and repair quality.

CARFAX COLLISION CARE PROVIDER BENEFITS

- Ability to offer the customer peace of mind.
- Increases the residual value of the customer's vehicle.
- Help assure the customer that the safety, durability, fit and finish have been properly restored.
- Identification from CARFAX as being a Certified Collision Care Provider on their website.
